Group Project Requirements

Professor Liker Graduate Course: Lean Thinking

Minimum Requirements for Legitimate Group Project

- The organization must be on board and willing to put time and effort into learning and using the improvement process. You will not do all the work.
- The host site must have a clear challenge statement established for your focus process.
- You must follow and practice the Improvement Kata pattern.
- You must have a place to post the storyboard and hold regular meetings (at least weekly) at the storyboard. Each meeting should include at least one formal Coaching Cycle between a designated "Coach" and "Learner" within your team. During the Coaching Cycle the rest of your team should act as 2nd Coach to the Coach, and give feedback to the Coach after the Coaching Cycle.
- There must be opportunities to run a number of experiments, with actual tests following the PDCA pattern.

You must have a challenge, identify the current condition, and from that establish with the on-site team a next target condition

THE IMPROVEMENT KATA IS A DIFFERENT APPROACH

With the Improvement Kata you work iteratively toward a target condition, on the way to a challenge, learning along the way. You work on those things that you discover you *need* to work on to reach the next target condition.

Example Challenge Statements for Student Teams

Don't be a Loaf

Learner - Hadley Whittemore - ZMO Bread Captain

Focus process: Wouldn't it be great if all bread had comparable cycle times and priority regardless of it's handling. By July 2019

Chill Out

Learner - Brandon Miller - ZMO Routes Captain

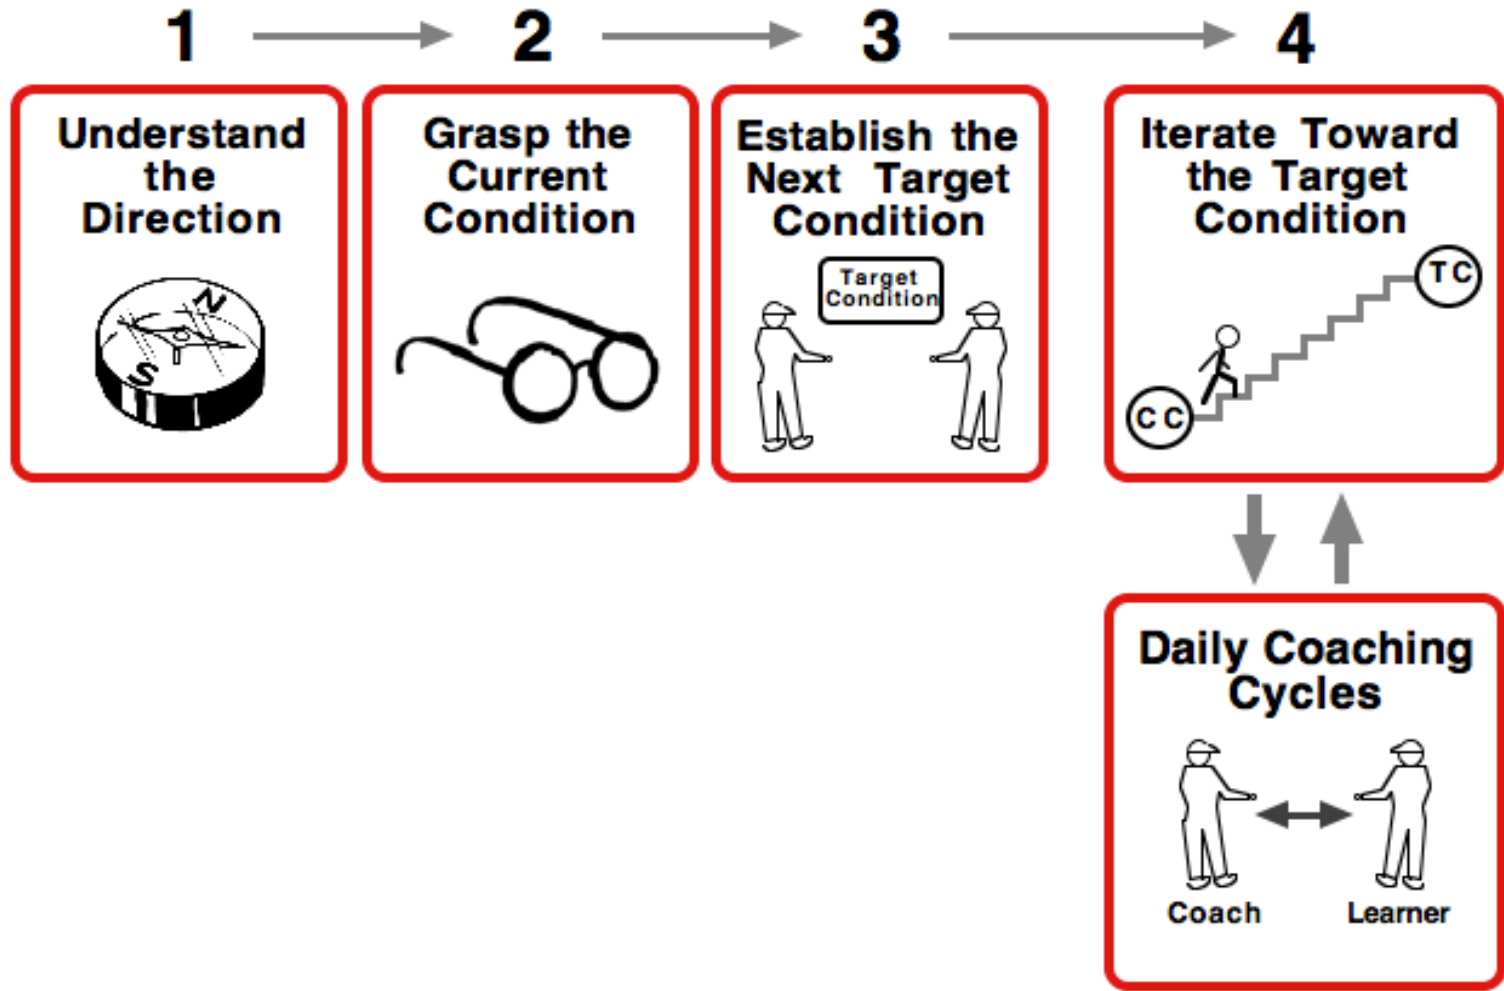

Focus process: Wouldn't it be great if ice packs had safe transport, less than 24hr freeze time, consistently frozen. By July 2019

Check Out that Cycle Time!

Learner - Mike Jarema - ZMO Bread Ambassador

Focus process: Wouldn't it be great if we could accommodate a 7 second takt with planned holiday staffing at checkout. By December 2019.

You must follow the IMPROVEMENT KATA, though coaching cycles will normally be weekly not daily

The team (internal and your group) must have the opportunity during the semester for the team to define and test ideas. You do not have to achieve the target condition.

SMALL, RAPID EXPERIMENTS ADVANCE YOUR KNOWLEDGE QUICKLY

The team must have a posted storyboard and make your experimenting cycles visual

Learner's Storyboard

Focus Process:		Challenge:
Target Condition Achieve by: _____	Current Condition	PDCA Cycles Record
		Obstacles Parking Lot

Forms are available on the Toyota Kata Website and in the Toyota Kata Practice Guide

EXPERIMENTING RECORD (Each row = one experiment)				
Obstacle:		Process:		
		Learner:	Coach:	
Date & step	What do you expect + metric	Do a Coaching Cycle	What happened	What we learned

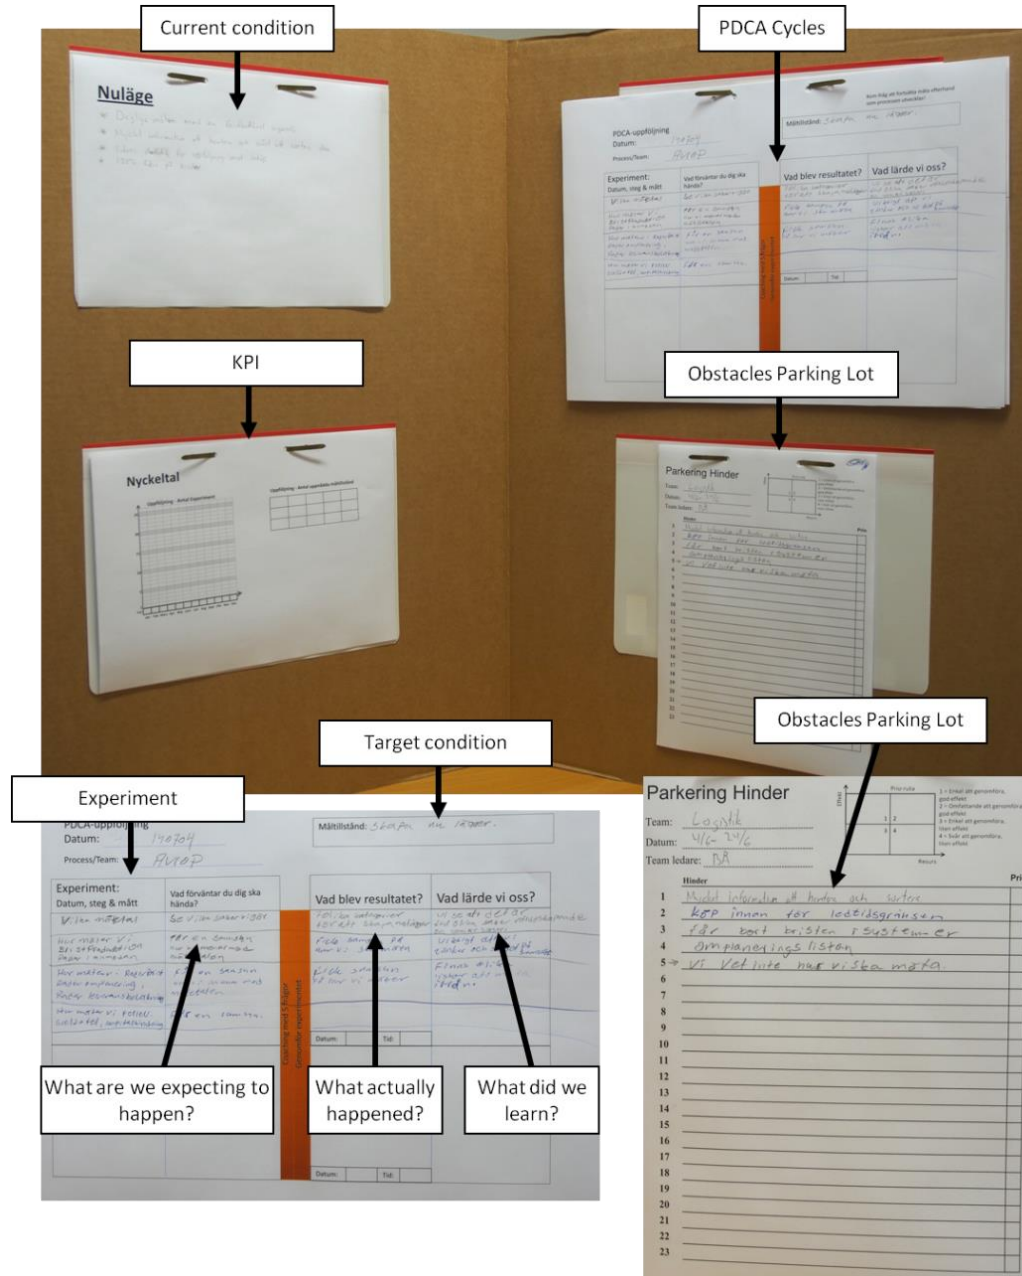

Obstacle Parking Lot
• _____
• _____
• _____
• _____
• _____
• _____
• _____
• _____
• _____
• _____
• _____

Kata Example at HP Tronic

(contract electronics manufacturer in Sweden)

- 3-year Challenge: *Production volume 50% higher with the same personnel and floor space.*
- 2014 started four areas: Sales, Purchasing, Engineering and Quotation Group
- Conducted 150 PDCA experiments so far
- Daily activity in each area with coaching cycles

Storyboard: Swedish Sales Organization

Using the Toyota Kata Learner's Storyboard

Kom ihåg att fortsätta mäta efterhand som processen utvecklas!

PCDA-uppföljning
 Datum: 14/11/2014
 Process/Team: AVUP

Måltillstånd: Skapa nya lösnar.

Experiment: Datum, steg & mätt		Vad förväntar du dig ska hända?	Vad blev resultatet?	Vad lärde vi oss?
Vilken mätetal		Se vilken säkerhets	Följda lösnarier för att skapa lösnar	Vi så att det är det olika säkerhetslösningar som säkerhets
Hur mäter vi? Bl. st. Produktion Fåder i anläggning		Får en känsla om vi mäter med mätstället	Fåder känsla på hur vi ska mäta	Viktigt att vi tänker och se det på samma sätt
Hur mäter vi? Rader på Rader omplanering, Rader leveransbeträning		Får en känsla om vi mäter med mätstället	Fåder känsla på hur vi mäter	Finns olika sätt att mäta i tiden
Hur mäter vi? Följ. Söjdetal, lösnarbetning		Får en känsla		

Coaching med 5 frågor Genomför experimentet

Datum: Tid: Datum: Tid:

EXPERIMENTING RECORD

One Example Target Condition

- Quotation Process
 - Defined work process for better integration sales, purchasing engineering
 - 85% Requests for Quote complete within standard time

Results of Experiments

- Daily seven-minute meeting, a whiteboard that visualizes the flow, and a set meeting agenda
- Participants feel more control and far better communication
- Achieving standard lead time increased from 60 % to 85% (May 2014) and 90% (June 2014)
